

TECHNICAL DATA SHEET

Product name	Revised
GENAN COATED INFILL EARTH BROWN	01.11.2025

Product description
Free-flowing, homogeneous and uniform rubber granulate, derived from end-of-life tyres through granulation and cleaning - and colour-coated with inert, non-toxic pigments and polyurethane binder.

Typical properties				
Properties	Test methods	Unit	Typical values	Specification
Specific density	ASTM D1817	kg/m ³	1160	1100-1200
CIELAB colour code (Note 1)	EN ISO/CIE 11664-4 Colorimetry - Part 4: CIE 1976 L*a*b* Colour space	n/a	L*: 20,50 a*: 6,70 b*: 7,40 E < 2	L*: 20,50 a*: 6,70 b*: 7,40 E < 3
UVA resistance (340 nm)	EN 14836 / EN 20105-A02	n/a	3	> 3
UVB resistance (313 nm)	EN 14836 / EN 20105-A02	n/a	3-4	> 3
Bulk density	EN 1097-3	kg/m ³	460	460 ±8%
Particle size range	ISO 13322-2	mm	0,8-3,0	0,8-3,0
	EN 15330-1 / FIFA	mm	0,8-2,5	0,8-2,5
Total polymer content (RCH)	ISO 9924-1	%	55	≥ 50
Ash content	ISO 9924-1	%	8	< 20
Impurities	EN 14243-2	%	< 0,008	< 0,01
PAH 8 REACH	AfPS GS 2019:01 PAK	mg/kg	< 15	< 20

Note 1: L*a*b* colour code defined with a Konica Minolta CM5 spectrophotometer.

Remarks	
PAH 8 REACH	A material sample has been extracted in accordance with EN 17409, and the result is presented as a moving average of the 4 most recent analyses.
International standards	GENAN COATED INFILL complies with all requirements for infill according to FIFA 2015, World Rugby 2016 and EN15330-1.
Content of chemical substances	GENAN COATED INFILL complies with DIN 18035-7, EN 71-3_Safety of Toys - Part 3, ASTM F3188 and SVHC limits as specified in the REACH candidate list (potential candidate substances included).
Particle size distribution	Information on the actual particle size distribution is available on the relevant sieve curves, which can be downloaded from the Genan website. Alternatively, our sales department can forward upon request.
Agglomeration	GENAN COATED INFILL may due to its physical properties - and depending on weather / storage conditions - have a tendency to cake over time. Storage as recommended in section 7.2 of the safety data sheet for this product.
Colour difference from batch to batch	GENAN COATED INFILL may vary slightly in colour from batch to batch. This despite the fact that all batches comply with CIELAB specifications. Genan thus advises installers to pre-mix, if colour-coated material from different batches is to be used for the same installation. Please contact your local Genan representative for further clarification if needed.
Abrasion resistance	GENAN COATED INFILL is intended for use as infill material in artificial turf only. Friction may cause colour-coating to wear off.
Impurities	GENAN COATED INFILL is a recycled product manufactured with end-of-life tyres as feedstock. Free impurities in the form of metal, textile, minerals, small stones, plastic and wood may thus occur.
Environment, Health & Safety	Guidelines in relation to environmental impact, health and safety are stated in the relevant Safety Data Sheet as well as in the applicable Instructions for Use and Disposal - both of which can be downloaded from the Genan website. Alternatively, our sales department can forward upon request.

Characteristics stated are typical for the product. The product is derived from a large number of different tyres; consequently, Genan cannot give any exact values on the chemical composition of the material. The above-mentioned characteristics and values have been prepared to the best of our knowledge, and Genan shall not be liable for any insufficiency or inaccuracy in such information.
